THERE’S QUALITY – THEN THERE’S CENTRIC QUALITY

Centric has earned a reputation for quality among professional racing teams, technicians and retailers – that’s a demanding crowd. It’s taken hard work to become the recognized leader in brake systems. We did it by building a team that includes engineers with PhDs in physics and metallurgy expertise. And our manufacturing processes are second to none. So, don’t be surprised if you hear “there’s quality, then there’s Centric quality” when the discussion is about the best brakes available for almost any application.

FRICITION

C-TEK®, StopTech™, PQ PRO & Posi Quiet® brake systems including ceramic, metallic and fleet performance brake pads, with all required installation hardware.

DRUMS & ROTORS

C-TEK Standard and Premium brake rotors, slotted/drilled rotors, brake hubs and drums.

CALIPERS

Centric re-manufactured Calipers are known to be the highest quality in the industry!

CHASSIS

Control arms, ball joints, tie rods designed to restore original performance and ride.

HYDRAULICS

Master cylinders, brake hoses, clutch hydraulics and hydraulic accessories.
WE MAKE THINGS MOVE

For our distribution partners, our first-to-market/first-to-garage parts are available when and where they’re needed. For drivers of all types, we make the parts that enable them to move fast and stop fast. It’s why Centric is the standard in many shops, and why we set the standard for reliability, performance and value.

YOUR NEXT MOVE? Getting access to the industry’s best brake systems, integration hardware and accessories is easy. Visit CentricParts.com or call (310) 218-1091 to locate the distributor nearest to you.

CENTRIC PARTS – BUILT TO FIT YOUR SUPPLY CHAIN, YOUR INVENTORY AND YOUR CAR

Centric Parts is the leading manufacturer and supplier of replacement brake components for import and domestic vehicles because we understand what car enthusiasts, professionals and our partners need. Backed by award-winning cataloging, a nationwide distribution network, shared engineering, and unparalleled sales and technical support, Centric Parts sets the standard in the automotive aftermarket.
